## 360plus Feedback Orientation

This is an interactive session designed to orient survey participants to the 360plus Feedback survey and process.

### Objectives:

Those attending will be able to:

- Articulate how the 360plus Feedback survey is tied to the organization's performance management system.
- Articulate how this feedback on their performance and work behavior can be beneficial to personal and professional growth.
- Activate the web-based survey software by logging on through email.
- Initiate a survey to their selected respondents
- Check the status of their survey and process the reports.

### Audience:

All employees who are deemed "participants" in the organization's 360plus Feedback process and who are going to be actively seeking performance feedback from "respondents".

**Course Length:** 1 - 2 hours depending on the level of computer and web sophistication of target group attending.
